

AED WALL MOUNT CASES AND RACKS

FEATURES

- Facilitates accessible and visible AED placement
- High tech design with large acrylic window provides a clear view of pad expiration date and the alarm activates when the AED is lifted out of the case
- RescueReady® indicator (assuring first time, every time shock delivery)

AED VISIBILITY – EASY EMERGENCY ACCESS

Introducing the NEW Cardiac Science Wall Mount Cases.

Because significantly reducing time to defibrillation saves lives from sudden cardiac arrest in a busy office or school environment, AED placement is critical. Cardiac Science has provided a solution with its innovatively designed wall mount cases and wire racks. Available in a variety of systems, the cases and racks facilitate accessible and visible AED placement.

The new Cardiac Science wall mount case is designed to hold the Cardiac Science AED and carry case, Ready Kit, and spare battery bag. This new high tech wall mount case is uniquely equipped with a strobe light alarm that is activated when the AED is lifted out of its cradle. The large, front paneled window allows users to easily check the defibrillation pad expiration date and RescueReady® indicator to ensure that the AED is ready for a rescue. The alarm strobe can be turned OFF with a key lock on the outside of the wall case, or by merely reinstalling the AED in the wall case cradle.

This wall mount is ideal for busy facilities such as corporations, airports, schools, health clubs, hotels, and manufacturing plants. Federal, state and municipal facilities are choosing Cardiac Science's wall mount cases and wire racks visibility, easy access, and innovative design. Creating Heartsafe Environments just got easier.

To learn more about Cardiac Science AED wall mount cases and wire racks, visit our website www.cardiacscience.com, or email info@cardiacscience.com, or call 1.866.289.5649 (USA and Canada only).
